

Airhose 20

The Airhose is a light weight and extra flexible pvc nitril hose for medium duty compressed air applications (up to 20 bar). This hose is often used in workshops like garages, where contact with oil is inevitable.

Temperature: -15°C to +60°C

- **Tube:** black pvc nitril resistant to oil
- **Reinforcement:** high tensile polyester fibre
- **Cover:** black UV resistant pvc with good oil resistance

Working pressure and test pressure measured at 23°C.

Applications

compressed air applications in workshops like garages

Assembly

different types of air couplings (express, geka, orion, rapid...)

Reference	Diameter (mm)	Weight (g/m)	Working Pressure (bar)	Coil length (m)
AH06	6 x 12	109	20	50
AH08	8 x 14	130	20	50
AH09	9 x 15	150	20	50
AH10	10 x 17	175	20	50
AH12	12,5 x 21,5	310	20	50
